Ex3

The screenshot shows a web browser window with the address bar displaying `127.0.0.1:5500/ex3.html`. The browser's tab bar shows several tabs, including one with the text "Agil". The main content area of the browser displays a flexbox layout with four green rectangular boxes. The first row shows the boxes with no space between them. The second row shows the boxes with space between them, and the text "justify-self will do nothing, because there is no space to distribute" is centered above them. The third row shows the boxes with space between them, and the text "now that we have space to distribute we can use justify-self" is centered above them. The fourth row shows the boxes with space between them, and the text "justify-self: flex-start" is centered above them.

justify-self will do nothing, because there is no space to distribute

now that we have space to distribute we can use justify-self

justify-self: flex-start
